

## SETTING UP APPLICATION ENVIRONMENT

### Create Flask Project

TEAM ID	PNT2022TMID31580
PROJECT NAME	Skill/job recommender application

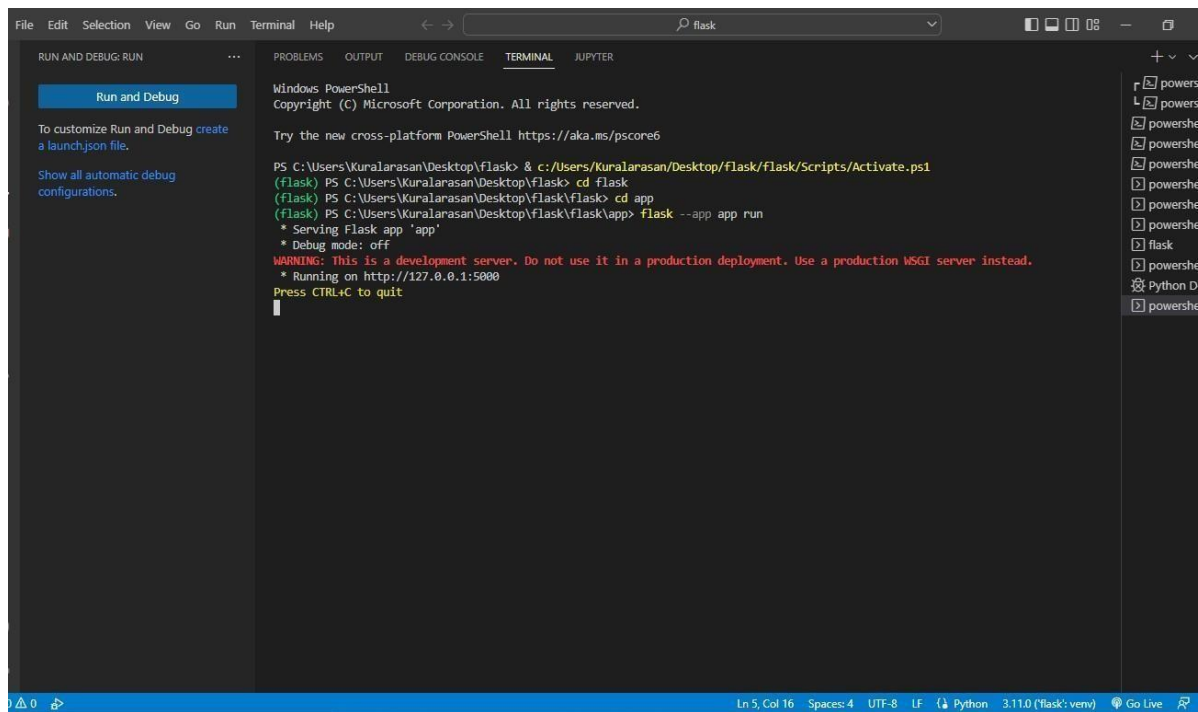

Code :

The screenshot shows a code editor with a dark theme. The Explorer panel on the left shows a project named 'FLASK' with sub-items 'OUTLINE' and 'TIMELINE'. The main editor area displays a file named 'app.py' with the following Python code:

```
flask > app > app.py > home
1 from flask import Flask;
2
3 app = Flask(__name__)
4
5 @app.route("/")
6 def home():
7     return 'WELCOME TO THE NEWS TRACKER APPLICATION'
```

## Terminal :

The image shows a Visual Studio Code (VS Code) interface with a terminal window open. The terminal is running a Windows PowerShell session. The user has navigated to a directory on their desktop and executed a series of commands to run a Flask application. The output shows the application starting successfully on a development server.

```
File Edit Selection View Go Run Terminal Help
flask

RUN AND DEBUG: RUN
Run and Debug
To customize Run and Debug create a launch.json file.
Show all automatic debug configurations.
